Division Overview

The Consumer Protection Division (CPD) is primarily responsible for exercising the CCPC's functions in the areas of consumer protection and ensuring that traders comply with the relevant pieces of consumer protection legislation. The CPD consists of three separate operational units: the EU Consumer Protection Cooperation (CPC) Unit and two Strategic Engagement and Consumer Insights (SECI) Units.

The CPC Unit fulfils the CCPC's role under the EU Consumer Protection Cooperation framework (Regulation (EU) 2017/2394) facilitating EU Member States' consumer enforcement authorities to work together on consumer protection issues. The CPC Unit has responsibility for the CCPC's functions in relation to Alternative Dispute Resolution (ADR) processes (S.I. No. 368 of 2015). It also participates in the International Consumer Protection and Enforcement Network (ICPEN), an organisation composed of consumer protection authorities from over 70 countries.

SECI leads in shaping the CCPC's consumer protection and enforcement strategy, supporting a risk-based approach to compliance and enforcement alongside the need to prioritise our work. SECI is responsible for managing the CCPC's enforcement case pipeline and provides information to internal and external stakeholders including responses to questions from government departments, media and parliamentary questions.

While each unit has its own specific area of expertise, competence and responsibility, it contributes to the work of CPD and the wider CCPC through a collaborative approach. The units engage with traders across all sectors, up to and including global corporations, on issues of compliance with consumer protection legislation. The units also have a strong level of engagement, coordination and cooperation with other agencies and authorities operating at a national, EU and international level.
